

WASTE COLLECTION & TRANSPORTATION

We provide efficient waste collection and safe transport as the foundation of sustainable waste management. Our licensed fleet and drivers operate across Kuwait to ensure timely and secure removal to authorized recycling or treatment facilities.

Our team is trained to handle diverse waste types in full compliance with KEPA, PAI, and municipal standards. Service plans are tailored to suit your requirements. Whether daily, weekly, or on-call, our solutions include skips, bins, hook-lift containers, and balers, with each collection documented through waste tracking logs and compliance certificates.

For sensitive or regulated waste, we offer sealed bins, GPS-tracked vehicles, and specialized containment systems. Whether you're a retail chain, industrial site, government office, or service facility, our collection service minimizes disruption, reduces risk, and ensures your waste is managed with the highest level of care and professionalism.
